*Accomplish more
with your horse than
you've ever imagined!*

*Start this spring right! We will work on you & your horse's partnership. Get into your horse's mind in a way that your horse wants to be with you and RESPECT you! Saturday morning we will work from the ground. In the afternoon we will direct the feet. Sunday we will build on these skills and apply them to trail obstacles.
Accomplish more with your horse than you've ever imagined!*
